## Health & Safety

### Health & Safety

In 2013 Irish businesses paid out €24 million in compensation for workplace accidents, averaging €28,886 per claim. This is an alarming figure for any organisation and potentially could be the difference between survival and insolvency.

Ensuring compliance with statutory obligations in **Health & Safety** can be a difficult task for any organisation. Without professional assistance, the task is greater as organisations endeavour to provide a safe and healthy work environment for its employees.

As Health & Safety is not a static practice, it can often distract an organisation from their core business. Health & Safety is part of our core business, so we guarantee full commitment in achieving your Health & Safety goals and in compliance to The Safety, Health & Welfare at Work Act 2007.

Employers are primarily responsible for creating and maintaining a safe and healthy workplace. A key objective for organisations is ensuring statutory compliances are met, risk is managed and a safe work environment is created.

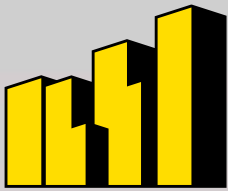

**K-MAC** can manage your complete Health and Safety requirements and provide the following services.

- Health & Safety Management
- Health & Safety Statements
- Organise Safety training for your staff
- Chair & document Health & Safety committee meetings
- Carry out risk assessments
- Assist you to achieve Health and Safety Compliance

Facilities Management Services

## Health & Safety

**K-MAC** will ensure that Health and Safety is merely not a “folder on the shelf” and will strive to reduce risk, help protect staff, assets and profit and achieve compliance with Health & Safety requirements. We will take responsibility for implementing a Health & Safety programmes in conjunction with the Health & Safety requirements of the client.

Our Health & Safety offering includes, but not limited to the following to ensure that your workplace is fully compliant with H&S legislation and risk is greatly minimised.

### **K-MAC Health & Safety Management**

K-MAC’s own H&S Management System operates to OHSAS 18001 standards. K-MAC use the same standards when managing health and safety in your workplace. K-MAC are fully committed & take full responsibility in managing your Health & Safety and will ensure standards are fully adhered to.

### **Risk Assessment and Safety Statement**

Under the Safety, Health and Welfare at Work Act 2005 every employer is required to carry out a risk assessment for the workplace. K-MAC will help identify any hazards present in the workplace, assess the risks arising from such hazards and identify the steps to be taken to deal with any risks. Maintenance and H&S method statements will also be written up.

### **Health & Safety Training**

K-MAC will provide essential Health & Safety training for its clients staff in line with Health & Safety legislative. The training entails manual handling, fire safety and first aid amongst others. Toolbox talks and Health & Safety communications are a regular occurrence for all staff - ensuring your staff are always up to date on any changes to regulations

### **Health & Safety Meetings**

Health & Safety will be documented in all reports and will form part of the agenda in our regular meetings with clients. K-MAC believe that regular communication between ourselves and the client minimises any health and safety risks.
